Housing: Housing Counseling

What We Won

$100 million to the Neighborhood Reinvestment Corporation to make grants to housing counseling intermediaries.

- NeighborWorks may receive no more than 15% of the funds available.
- The NRC may retain a share of funds consistent with its standard rate for administration and oversight.
- Funds will be available until September 30, 2025.

How funds can be used

At least 40% of funds must be provided to organizations that target services to minority and low income populations facing housing instability or that provide housing counseling services in neighborhoods with high concentrations of minority and low income populations.
